It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosive, as defined in section 4, Act IV of 1884, except 15 lbs. of common gunpowder in addition to 12 rockets and 12 blue-lights. All explosives which vessels are by this rule permitted to keep on board shall be stored in a copper magazine out of risk of fire and explosion.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of 15 lbs. of common gunpowder, in addition to 12 rockets and 12 blue-lights, are prohibited from proceeding above Budge-Budge, and the master of any vessel lying within the port which shall have on board any explosive in contravention of these rules shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India Notification No. 5528, dated 11th October 1901, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in Rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping the powder. No charge will be made for the use of the boat for landing ship's powder, but

the responsibility of the keeper in respect of the ship's powder shall not commence until it is landed on the bank, and shall cease as soon as it is shipped on board the boat. Every precaution will be taken to insure the safety of the powder while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's powder, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of such consignments, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India's Notification No. 5528, dated 11th October 1901, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, percussion caps and, under certain conditions, fuses for shells and tubes friction for guns brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ships' gunpowder previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such master for the re-delivery of such packages.

11. Before entering the limits of the port, the master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather, or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghat, and the master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels outward bound, who may require ships' gunpowder for their outward voyage, shall not take such powder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15 lbs. of common gunpowder in addition to 12 rockets and 12 blue-lights.

15. Masters of vessels who have deposited ship's powder at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders shall be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the powder on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats shall be permitted to take on board at the Moyapore magazine and bring as far as Neemuck Mehal Ghat, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50 lbs. of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder under the provisions of Rules 16 and 17 shall be allowed to proceed above Neemuck Mehal Ghat. All such powder shall be landed at Neemuck Mehal Ghat, and no powder shall be landed at any other ghat, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20 Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Home Department, No. 5528, dated 11th October 1901, must make their own arrangements for the discharge of the explosives:—

CLASS 2.—Nitrate mixture.	CLASS 4.—Chlorate mixture.
„ 3.—Nitro compound.	„ 5.—Fulminate.

21. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore magazine. They shall only be allowed to enter, and pass through, the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India under Notification No. 5528, dated 11th October 1901. But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur: provided they are taken direct from the vessel to wagons; or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel.

22. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The whole vessel, barge, or craft, in or on board which explosive is stored, shall be deemed to constitute the magazine.

3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and receptacles for, or tools or implements for work connected with, the keeping of such explosives.

4. The interior of the magazine, and the benches, shelves, and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel, or similar substance in such manner, as to come into contact with the explosive in such magazine, and such interior, benches, shelves, and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.

5. The magazine shall have attached thereto a sufficient lightning-conductor, which shall be tested previous to the storage of explosives.

6. Charcoal, whether ground or otherwise, and oiled cotton, oiled rags and oiled waste, and any article whatever liable to spontaneous ignition, shall not be taken into the magazine.

7. Before repairs are done to or in any part of such magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out. After being so cleaned, it shall not be deemed a magazine until explosives are again taken into it.

8. There shall be constantly kept in the magazine, affixed in such manner as to be easily read a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10. No fires, lights, lucifer matches, or any substance or article likely to cause explosion or fire shall be permitted to be at any time in the magazine.

11. Due provision shall be made by the use of suitable working clothes, without pockets, suitable shoes, searching and otherwise, or by some of such means for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion of fire, and for preventing the introduction of any iron, steel, or grit into any part of the magazine, where it would be likely to come into contact with explosive, and in any part of the magazine in which any explosive is kept, which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part; but this condition shall not prevent the introduction of an artificial light of such construction, position, or character, as not to cause any danger of fire or explosion: and so much of this condition as relates to the exclusion of iron, steel, or grit shall not be obligatory in the case of a magazine in which no explosives other than explosives of the 1st Division of the 6th (Ammunition) Class is kept.

12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

(*a*) is constructed without any exposed iron or steel in the interior thereof,

(*b*) contains only explosives, and

(*c*) is closed or otherwise properly covered over:

Provided that clause (*a*) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st Division of the 6th (Ammunition) class, or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Local Government endorsed on this license.

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition.

14. The licensee shall see—

(*a*) that no fire, unprotected light or smoking is allowed while any explosive [other than explosives of the 1st Division of the 6th (Ammunition) Class] is being received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open, and

(*b*) that no receipt or delivery of explosives is carried on, and the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly banked up) or an unprotected light is alongside a magazine containing an explosive of the 1st Division of the 6th (Ammunition) class, or in its immediate vicinity.

15. A person under the age of sixteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft" shall in Nos. 12 and 13 of these conditions be taken to include carriage.

17. Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment, subject to the following qualifications:—

(*a*) the various explosives of Classes 1 (Gunpowder), 2 (Nitrate-mixture), 3 (Nitro-compound), and 4 (Chlorate-mixture), safety fuze belonging to the 1st Division of Class 6 (Ammunition), and such of the various explosives of the 2nd Division of Class 6 (Ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space,

(*c*) such of the various explosives of the 2nd Division of Class 6 (Ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space,

(*d*) the various explosives of the 3rd Division of Class 6 (Ammunition) may be kept with each other without any intervening partition or space,

(*e*) the various explosives of Class 7 (Firework) may be kept with each other without any intervening partition or space.

Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

In case of (*b*) class candidates no such fee is required.

9. In the case of (*a*) class candidates the District Superintendent of Police will, after seeing that all the certificates are in order, issue a verification roll in the form prescribed in the Bengal Police Code, and inform the candidate, that his appointment will be contingent on the enquiry into his parentage, antecedents and social standing proving satisfactory. In the case of (*b*) class candidates these verification rolls are not required. The District Superintendent will then send the applicant with his certificates to the Magistrate, who, after subjecting the candidate to an examination in riding, and if he pass the examination, noting the fact on the form of application, will grant him a written permission to appear at the examination.

10. When permission has been given to any applicant to appear at an examination, the above papers with the Treasury receipt for the examination fee, which should be paid into the Treasury, will then be forwarded without delay by the Magistrate of the district in which the candidate resides to the Magistrate of the centre at which the candidate is to be examined.

11. Candidates who have been permitted to appear will attend before the Examination Committee on the day preceding the examination. The Examination Committee will compare the descriptions, thumb-impressions (duplicate impressions being taken for the purpose, if necessary), and signatures, and satisfy itself as to the identity of the person appearing. The Committee will also satisfy itself as to the physical qualifications of any candidate concerning whom it may entertain doubt and reject such candidate, should he, on re-examination, be found below the required standard.

12. At the examination a candidate will be required to sign the papers in every subject, writing his father's name and his own address on them to avoid confusion arising out of a similarity of names.

13. After the results of the examination have been ascertained, the certificates and verification rolls of passed candidates will be forwarded to the Principal of the Police Training School, Bhagalpur, and will be treated as verification rolls.

The certificates of unsuccessful candidates will be returned, if asked for, within two months, or destroyed at the end of that period.

14. The subjects of examination will be as follows:—

I.—Dictation, Letter-drafting, Précis-writing, and a short translation from Bengali or Hindi (Kaithi) into English. Europeans and Eurasians will be allowed to choose one out of these two languages to be examined in. No candidate failing to obtain half marks in this paper will be considered qualified for appointment.

II.—Paper on general knowledge. The questions will be set so as to test the general information and intelligence of candidates.

III.—Mathematics, including Euclid, Books I—IV, Arithmetic and Algebra, and Account-keeping.

IV.—Law, including the Penal Code, the Criminal Procedure Code, and the Evidence Act.

N.B.—Class (*b*) candidates will be exempted from passing in Euclid and Algebra, alternative questions in Arithmetic being given.

15. The marks will be given on the following scale:—

1. Dictation and language	...	200	3. Mathematics	...	200
2. General knowledge	...	200	4. Law	...	200

Those who have not obtained half marks in dictation and language and one-third marks in the aggregate of the remaining papers are to be struck out as ineligible for appointment. Of the remaining candidates, a list will be made as follows:—(*i*) two-thirds of the appointments obtainable by open competition to be given to (*a*) class candidates who stand highest on the list in order of merit; (*ii*) one-third of the appointments obtainable by open competition to be given to (*b*) class candidates selected from among those candidates who have obtained not less than one-third of the marks.

16. Natives of Bengal Proper will be eligible for appointments in all districts where Bengali is the vernacular of the district, and natives of Bihar will be eligible for appointments in districts where Hindi is the vernacular. They will, however, be liable to be transferred to any district in the Province.

17. Selected candidates, whose verification rolls have been returned as satisfactory, will undergo a 20 weeks' course of instruction at the Bhagalpur Police Training School. This course will include drill, elementary surveying, anthropometry, and instruction in prosecuting cases in Magistrates' Courts and other practical duties of an investigating officer.

18. At the end of the 20 weeks candidates obtaining a certificate of proficiency will be posted to districts as probationers for two years. If at the end of that period they are pronounced competent and fit, they will receive appointments in due course as fifth-grade Sub-Inspectors. During the period of instruction they will be subject to the rules and regulations of the Training School and will receive Rs. 20 a month as salary. On being passed out of the Training School, they will receive Rs. 30 a month as Probationary Sub-Inspectors.

19. The position of selected candidates in the Range lists from which promotions are made will be determined, firstly, in the case of (*b*) class candidates by seniority, and, secondly, in the case of (*a*) class candidates by the places obtained at the final examination held at the conclusion of the Training School term.

No. 2382J.—The 3rd April 1903.—With reference to Rule 4 of the Rules published under Notification No. 2381J., dated the 3rd April 1903, for the examination of candidates for the appointment of Sub-Inspectors of Police in Bengal, it is hereby notified that the next examination will be held on the 19th and 20th May 1903 at the Calcutta and Bankipore centres.
